5 BEDROOMS

3 BATHROOMS

The Cambria house, a wooden beach cottage built in 1927, has 5 bedrooms with queen sized beds. Additionally, the house has a small loft that sleeps 3 in twin beds. The loft is fun for kids ages 8 to 15. All rooms are separate but the back apartment one room is accessed through another. Typically parties use this suite as a nursery by putting the small children in the back room. Baby monitors and portable cribs are available. We also have high chairs, plug covers and chains at the top of all doors leading outside.
